This submission was discussed and the following severe reservations raised regarding the travel plan as it currently stands:

- Parking – inadequate spacing for 3 cars
- Visibility – the splay does not allow for adequate visibility for safe access by vehicles
- Concerns over pedestrian access in view of the above points.

The following suggestions were put forward

- It was suggested that an area on the left hand side just past the gate could be a more suitable area for parking, although details of ownership of this area as well as the current parking area would require clarification.
- Another suggestion was for a safe drop off point, as a way to reduce the amount of parking required.
